SIMPLY DIVINE DEVELOPMENT, INC ENTREPRENEURSHIP PROGRAM

This document contains service information provided by Simply Divine Development, Incorporated. It was constructed with the purpose of providing brief details about this new program for the advancement of Students in the College of Business at their College or University. This program is also available for non-profit organizations dedicated to providing business opportunities for those in need of career opportunities.

Terrence Kirksey
Entrepreneurship Program Coordinator
Simply Divine Development, Incorporated

To the Career Development Organizations:

Our corporation is greatly involved in the life of college students. We participate in the internship program at our local colleges and universities.

This correspondence highlights our Entrepreneurship Program that will greatly enhance the curriculum of the Students in the School of Business. Most importantly these programs will lead to greater opportunities for the students in the future and to those in our general society that need a career opportunity.

We possess a business need that we believe will provide the students in the School of Business an opportunity to become entrepreneurs before they leave the campus. The students in the School of Business can satisfy our business needs, become entrepreneurs, and earn compensation for the work they perform. Our Entrepreneurship Program will help students in the School of Business, under the tutelage of their instructors, create and manage and actual business.

In addition, our business needs will provide business opportunities to the general public, which will provide much needed career opportunities to our society at-large.

We sincerely hope that you will consider partnering with us to implement the Entrepreneurship Program at your local college or university. We also hope that non-profit organizations that are assisting the general public with career opportunities will also consider implementing the Entrepreneurship Program.

Sincerely,

Terrence Kirksey
